NO CLASS of plants for outdoor growing possesses as many charms as Lilies. They are rich in color, stately and handsome in habit, and of such delicious fragrance that they stand out prominently. No herbaceous border should be without at least a few of them. Lilies do best in the hardy border or among shrubbery. Any rich garden soil with good drainage will do. Lilies delight in a sunny location, but prefer to have the soil at the base of the plant somewhat shaded. Once established, they increase in beauty each year.
